Written
Testimony

I've moved to Makaha in 1980 and I've watched my community almost doubled and because i use the Waianae Refuge Drop-off site, I've seen how many more people use this site. The problem I see is the facility has not expanded even with the growth of the users. Many time people are turn away because the container are full. I can see the frustration on the faces of the workers because they are not able to service the people in the Waianae Community. Please build another ramp so they can have more containers. They also can use a new/better compressing machine. Because the facility is close so often, illegal dumping is increasing because people are tired of loading their trucks just to find the facility closed again and again and again. You don't need to evaluate because I know there's enough complaints for serval years now.

Written Testimony I strongly support the need for a comprehensive report evaluating the operations of the Leeward Coast refuse drop off facilities. There is too much illegal dumping happening and we need to make sure that our facilities operate in ways that are effective so that people will hopefully use legal dumping practices rather than illegally dumping in our communities.
